

Julian Mountain

Julian started his career with PriceWaterhouseCoopers in their management consultancy division and went through Price Waterhouse's GTP (Graduate Training Programme) before joining Andersens Consulting.

His most recent work has been in the private financial sector, where he has led Global projects working alongside the Board Directors and he now works as a truly independent non-executive director/consultant helping companies resolve their challenges. He also set up Harvard Consulting and Mylorr as Management Consultancies specialising in delivering complex strategic solutions within pre-defined timescales and budgets. Both companies were successfully built and sold.

Julian has extensive experience (22 years) of managing companies and managing major global programmes and also international experience having worked in America, Singapore, Hong Kong, Switzerland, France etc.

His extensive experience of organisational development, project management/project reviews, risk management, audit, compliance, business process re-engineering, strategy, change management, interim management and IT, means that Julian has a reputation (proven through his own companies) for delivering successful business solutions on time and to budget.

Specific NHS Experience

Julian has worked on a number of NHS projects and has also carried out NHS reviews for the Audit Commission. Some varied examples of NHS work include:

- The role and effectiveness of Non Exec Directors in NHS Trusts;
- The use and cost effectiveness of water and energy consumption within NHS hospitals;
- NHS ambulance service logistics review.
